Morning Consult
National Tracking Poll #180326
March 20-21, 2018

Crosstabulation Results

Methodology:
This poll was conducted from March 20-21, 2018, among a national sample of 1992 registered voters. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on age, race/ethnicity, gender, educational attainment, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.

Table ALZ10_4: *Now were going to talk a bit more about funding for Alzheimers disease. If you knew each of the following, would that make you more likely to support or more likely to oppose the federal government increasing funding Alzheimers research, or would it not change your view either way?*

In 2018, caring for people with Alzheimers and other dementias cost the United States an estimated $277 billion. Cumulatively between now and 2050, it will cost $20.2 trillion two-thirds of which will be borne by Medicare and Medicaid.

Table ALZ10_5: *Now were going to talk a bit more about funding for Alzheimers disease. If you knew each of the following, would that make you more likely to support or more likely to oppose the federal government increasing funding Alzheimers research, or would it not change your view either way?*

One in every five dollars of Medicare spending is spent on people with Alzheimers and other dementias.

Table ALZ10_7: *Now were going to talk a bit more about funding for Alzheimers disease. If you knew each of the following, would that make you more likely to support or more likely to oppose the federal government increasing funding Alzheimers research, or would it not change your view either way?*

in 2017, the NIH spent only $100 on Alzheimers research for every $12,500 Medicare and Medicaid spent caring for people with the disease.
